DIVORCE STATISTICS.

DANGER YEARS OF DOMESTIC ROWS ARE IN THE FOURTH AND FIFTH OF MARRIED LIFE. SOME CAUSES OF SEPARATION.

New York Press: There is no armor against fate, as the poet has observed, and there is no time guarantee and there is no time guarantee against divorce. Action for divorce, not at all preconceived, has been begun in several instances, on the very many the several instances on the very many and happily for twenty-one years and more, and yet that does not forestall the coming of the demon of divorce, it is a matter of record that there are practically as many divorces granted to those who have lived together for a score of years or more, as to those who have level together for a score of years or more, as to those who have been married five years.

The United States government has not framed a uniform divorce law, but thas collected statistics showing the duration of marriage before divorce, these figures covering a period of twenty years. In the last thirty years 500,and there is no time guarantee

it has collected statistics showing the duration of marriage before divorce, these figures covering a period of twenty years. In the last thirty years 500, 600 divorces have been granted in the United States. The figures for the last ten years have not yet been published, but for the nineteen years from 1867 to 1885 statistics show that the divorce ligh-water mark belongs to those who have been married four years.

Beginning the one-year married people, the total is, roundly, 15,000. For the four years married the total mounts upnearly double—27,000. Then it sildes off. But until the figures for those who have been married nine years are reached, the one-year figure is not touched. It decreases etacally until the twenty-year married number 4,000. Those who have been married twenty-one years are lumped with those who have been married twenty-one years are lumped with those who have been married a longer time, and found it necessary to dissolve the bonds that unite, and the enormous total of 25,000 is reached. Evidently compatibility need not increase as the years fly by. In this class, however, a reversal of "endurance" figures is shown, for the average duration of married life for the husbands is 47.47, while for the wives it is only 25.78.

While, divorce aside, the average duration of married life is from twenty-two to twenty-six years, the average duration of married life is from twenty-five to twenty-six years, the average duration of married life to the divorced is only 9.17 years, being 9.27 for the wife and 8.97 for the husband. This difference between husband and wife suggests that the weaker sex is really the stronger in bearing the woes of the married. These figures are for the country at large.

New York state, owing probably to its viried law shows up a little better, men

married. These figures are for the country at large.

New York state, owing probably to its rigid law, shows up a little better, men holding out 9.52 years and the women 10.65 years. But, though the wives do endure longer, nearly twice as many women as men get divorces. This proportion is preserved pretty evenly all through the table, whether the couples have been married two years or twenty. Upward of 25,000 divorces have been granted in New York state in thirty years, a third of them coming from the New York city courts. The metropolis frees about 800 couples every year.

New York state of the nearly 14,000 es divorced for adultery, almost we received decrees of limited di-for cruelty, and of these less than of the complainants were men.

see have received and of these less than fifty of the complainants were men. It is interesting to note that in the Empire state of the 15,335 divorced couples in twenty years 6,811 were without childying, showing that it is almost a toes-up whether the coming of children is a bar to divorce.

The census of 1890 gave the number of divorced men in the biggest city of the country as 322, and of divorced women, 551. As to their ages, there were more hetween thirty-five and forty-four years old than of any other age. There were twenty-three divorced husbands over sixty-five years old, and thirteen divorced wives. In the state at large there were more than 5,000 divorced persons living in 1890. New York city has a smaller proportion of the divorced to the married than Chicago or even Philiadelphia, The proportion of the divorced living in the cities is less than that in the country at large by almost one-half. Of less than 400,000 divorces granted from 1867 to 1830, there were represented in living persons in the latter year 120,000 females, and this at a time when there were 1,500,000 more males and 5,000 females, and this at a time when there were 1,500,000 more males than females living in the country.

The general charges of cruelty gives

males living in the country.

The general charges of cruelty gives the widest scope for the play of humor and some other things in assigning causes for divorce. When the charges are brought by the husband the case is

are brought by the husband the case is particularly pathetic. One man got a divorce because his wife kept insisting that he was no man at all. A browbeaten farmer sowed his grass in August, which displeased his wife so much that she threw all of the table dishes out of the window.

One man's wife was a member of the Bortherhool of New Life, managed by the Thomas Lake Harris who played Laurence Oliphant on his string, and who is living inretirement in New York. The chief of the sect wouldn't give the husband a permit to live with his wife, and set a time three years distant when they should meet. Another man's wife refused to cook for him or sew on his buttons. His neighbors testified that

wake till 3 o'clock in the morning solding him.
A nice old man was pulled out of bed r his whiskers. Another husband had a bedclothes jerked off him regularly the morning by his wife. When that do't fetch him she jumped on him the teres, and then ran a knitting sedle four inches in his leg. Then he led for and get his divorce. A judge se granted a divorce because a wife at her husband severely with her bustell thus causing him extreme bodily spuish.

er being married twenty-five year embraced the spirit-rapping doc and brought to her house divers g men, chiefly drummers, which so the feelings of her spouse that he is decree of divorce. Another pallegally separated because the wife arly threw scalding tea at the hus One patient, long-suffering mar him on the jaw and pulfed ou

shit him on the jaw and pulled out drai of his hair. One of his locks of exhibit A in the case, the first morning after a certain lage the bride beat her husband her shoe heel. FINANCE AND TRADE. The Features of the Money and Stock Markets.

NEW YORK, Oct. 12.-Money on call steady at 215@3 per cent; last loan 3 per

NEW YORK, Oct. 42.—Money on call steady at 2½@3 per cent; last loan 3 per cent; closed at 2½@3 per cent. Prime mercantille paper 4½@5 per cent. Sterling exchange firmer, with actual business in bankers' bills at 24 8½g for 60 days; posted rates 34 82½@4 82½ for 60 days; posted rates 34 82½@4 82½ for 60 days; posted rates 34 82½@4 82½ and 34 80½@4 \$1. Silver certificates 65½@57½c. Bar silver 56½c. Mexican dollars 43½c.

Much parade was made yesterday of the alleged conversion of some of the leading bear operators on the exchange to the bull side of the market, To-day's developments prove that there is a very large and aggressive contingent still left in the market. The operation known as Wall street parlance is testing the market had for several days failed to cause any marked movement in either direction. That is to say, short selling by the bears had failed to induce any large failowers, Skilled observers had grived at the conclusion that the market was due for a period of duliness, barring the development of some markedly significant news. The hardening of prices last night and the further alyance this morning looked like a termination of the bear campaign. Vet in the two final hours of the market the leafus succeeded in working a sharper decline throughout the whole list than has been accomplished on any one day of their campaign. They had no new event which could influence the values of stocks to aid them and no report of any cassation in the improvement of the earning power of properties the shares in which are dealt in on the exchange. The nominal motive of the selling was the fear that our relations with Spain were in danger of rupture as an our trowth of the policy which General Woodford was ordered to pursue at Madrid. The dispatch from Malrid to the Associated Press carrying the semi-official announcement of the sub-

stance of Spain's reply it was feared would force President McKinley to take action that would lead to a declaration of war. Apprehension on this point became so acute that large amounts of long stock were offered and numerous stop loss orders were uncovered, which gave success to the bears. Several ineffectual attempts were made to stem the decline, but raillies were only momentarily and fresh heavy orders kept the liquidation to the close of the day. Last prices were in many cases the lowest and the tone of the market at the last was very feverish. in many cases the lowest and the tone of the market at the last was very feverish. Losses on the day extend all the way from a fraction to over 4 points, the range in the leading active stocks being from 2 to 4 points. Chicago Gas and the Grangers were most heavily dealt in, and showed the sharpest declines.

The bond market showed increased activity and shared in the weakness of the stock market, though to a less extent. Total sales \$2,450,000.

U. S. 4's were advanced 14c btd.

The total sales of stocks to-day were

The total sales of stocas to 493,800 shares.

The Evening Post's London financial cablegram:

The stock markets were quiet to-day, attention being absorbed with the commencement of the settlement. There was a better tone in Americans but the only pronounced rise was in Canada and Norfolk & Western, both of which were largely bought. The close was at the largely bought. The close was at the largely bought. folk & Western, both of which were largely bought. The close was at the best. In the other markets the only feat-ure was the boom in West Australian

The Berlin market was dull, being gen erally adversely affected by the imperior bank of Germany declining to discour a certain kind of paper formerly discouried. It means some curtailment of the credit system and assists the monetary stringency in Germany.

BONDS AND STOCK QUOTATIONS.

Brendstuffs and Provisions

Breadstaffs and Provisions.
CHICAGO, Oct. 12.—It was a day of liquidation in all the grain and provision markets. The government crop report was especially propulnent. Weak cables and a large visible decrease also affected wheat, which closed at a 1½60 H½6 decline. Corn lost %c; oats, %c and provisions, which had discouraging yellow fever news to contend with, declined 20c for pork and 5@10c for lard and ribs.
Wheat was weak at the opening, Dec.

Wheat was weak at the opening, De-cember, which closed yesterday at 91% @9114c, starting to-day at 90%@90%c. The government statement in its Oc-The government statement in its October report says that the estimate of area and condition of wheat was withheld pending special investigation and was given a very bearish construction by the trade. It was taken as notice that the previous estimate of area was to be increased. This and the weaker tone at Liverpool, which market opened \$\phi_0 \times d\$\times d tober report says that the estimate ish temper of the trade the market de-clined very slowly. It even sold up a trifle shortly after the opening, Decem-ber advancing to 90%@91c. By 11 o'clock it was seilling around 90c. As the day advanced, however, it became decidedly unpleasant for holders of wheat. The Bradstreet statement showed an increase in the world's vis-lible supply of 8,212,000 bushels for the week, where an increase of not over 3,000,000 was expected. This caused re-newed seilling, December declining to 3,000,000 was expected. This caused re-newed selling, December declining to 89%c under decidedly free liquidation. The Liverpoot closing was %401d lowe-than yesterday, and the continents markets, which had been strong at the outset, closed at slight declines. There was nothing in the day's record of wheat movement to discourage holders. Primary market receipts were 131800. bushels, against 1,540,000 bushels a year ago; Atlantic exports equalled 770,000 bushels. New York reported export engagements of 50 boats. After the ef-

engagements of 50 boats. After the effect of the Bradstreet statement had been spent the tenor of the news seemed to change. There were denials that the Argentine drought had been broken and renewals of the assertions of damage by locusts. Very strong local buying attended these buillish reports and a gradual recovery in prices ensued. December was bringing 304cc at the close.

Corn was weak on account of the government crop report. This indicated a Corn was weak on account of the government crop report. This indicated a total yield of 1,825,000 bushels, or fully 100,000,000 bushels more than the trade had estimated, and severe lauditation was the consequence. The shipping demand showed no Improvement, notwithstanding the break in prices. Liverpool cables were 1/2/3/4 lower, an additional depressing factor. Beceived ditional depressing factor. Receipts were 817 cars. There was α partial rally late in the session in sympathy with wheat. December ranged from 26½c to 27%c, closing %c lower at 27% ergs.

with wheat. December ranged from 28½c to 27½c, closing ¼o lower at 27½ 6720c.

In cats the government report was the most influential feature, and was mainly responsible for the decline in prices. A yield of 772,000,000 bushels is expected, or 40,000,000 more than indicated in September. This, together with the weakness of wheat and corn, caused liberal, selling by professionals. Offerings were quite readily absorbed. The market experienced a slight rally when wheat made its final recovery. Receipts were 427 cars. December ranged from 19¼c to 18¾c and closed ¾c lower at 19c bid.

Provisions started strong in sympathy with an advance disappeared at once under free selling by English houses, who found it difficult to dispose of their offerings. Discouraging yellow fover news and the extreme weakness of the grain markets caused that market to rule weak until hear the close, when prices recovered a little. At the close openment pork was 20c lower at \$7.60. December land, 5c lower at \$1.20½, and December land, 5c lower at \$1.20½, and December ribe, 7½ 610c lower at \$1.40. Estimated receipts Wednesday: Flour caster.

\$6.00@6.500. Veal calves OIL CITY—Credit balances 70c; certificates no bids; shipments 127,158 bar-rols; runs 115,137 barrels. CINCINNATI—Hogs strong at \$3.00@ 4.10.

Woot

Wort

BOSTON — The wool market has shown a quieter tone this week, although prices are held firmer for most classes of wools. Territory wools still head the list in the amount of business transactions, and the price is a trifle higher, taking the market as a whole. About 50 cents secured for fine medium and fine is the generally established price in the market. Staple wools would go higher, but the supply is very meagre. The demand for Australiau wools continues, with full prices obtainable. ontinues, with full prices obtainable the following are the quotations of ading descriptions: Ohio and Pennsyl yania fleeces X and above, 24@25c; XX and XX and above, 25@29c; delaine, 29@ 30c; No, 1 combing 25@29c; No, 2 comb-ing, 25@29c.

LONDON-At the wool auction sales

to-day 9.978 bales were offered, of which 1,600 bales were withdrawn. The attendance was large and the demand keen. There was a good supply of slipes, which were in demand, and realized full rates. The following are to-day's sales in detail:

New South Wales — 1,209 bales; scoured Sig@ls 25,6; greasy 8@104.

Queensland — 116 bales; greasy 8%1@74d.

7¼d. Victoria—1,268 bales; scoured 8½@1s 5½d; greasy 5½@8½d. South Australa—189 bales; greasy 514@7d.

West Australa- 228 bales; scoured West Australa— 228 bales; scoured is 2d@is 3d;d; greasy 6@74d.

New Zealand— 6.709 bales; scoured 6d@is 3d; greasy 4%@95d.

Cape of Good Hope and Natal—281 bales; scoured 8d@is 5d; greasy 6d.

NEW YORK-Wool firm.

Metals.

NEW YORK-Conditions in the metal market continue unsatisfactory. The Metal Exchange reports the closing of the various departments as follows: Pig iron warrants easy at \$6 90 bid and \$7 00 asked. Lake copper unchanged. The quiet but firm at \$13.70@13.80. Spelter dull at \$4.20@4.25. Lead easier at \$4.15@ 4.22%. Smelters \$4.00.

NEW YORK—The dry goods market continues quiet in all the cotton lines. Woolen goods show no perceptible strength. Print cloths are steady at strength. Prints are generally change. let. oienni
